

# Addiction Crew, Crack File

[Music & Lyrics by S. Guadagnoli]

Think you're about to forget what you do remember now  
Pray just another style to express  
Reach out for a brand new connection to crack da file you miss  
Please don't tell me, don't wanna listen to  
Your problem's not so big  
but you know what  
a real problem is?  
but you know  
You keep on fillin' my head with yr of bullshit, get da f\*\*k out my way  
Pray just another style to regret  
Shut up, like I don't know like I don't know, you feel so f\*\*kin' bored  
Please don't tell me, don't wanna listen to  
Your problem's not so big  
but you know what  
a real problem is?  
but you know  
turn around your head and realize

[Chorus]

Are U feeling so much better than I know  
What I used to know in my whole damn life just a fair affair  
Get down for me  
Breathing out, cannot blow your shell away  
What I used to need all I used to need a Crack File for yr life  
Think you're about to re-load now, U've just got one more chance  
Pray just another style to express  
Reach out for a brand new connection to crack da file you miss  
Please don't tell me, don't wanna listen to  
Your problem's not so big  
but you know what  
a real problem is?  
but you know  
turn around your head and realize

[Chorus]

Take me out side  
Take me inside....Break!

[Chorus]
