

# Addiction Crew, Disconnect

[Music & Lyrics by S. Guadagnoli]

Wake me  
'coz I'm in the place to be  
Call me  
just takin' a breath of you  
Once more  
Than I do realize you're gonna disappear as the daylight  
Voice wave  
your body can't get to me  
Lay down  
what you can read about  
So far  
and close at the same time as we disconnect just to figure it out the two of us  
sun, rain, comin' again  
so just layback layback I'm callin' you  
Once more  
Than I do realize you're gonna disappear as the daylight

It doesn't come easy when I'm talkin' on the phone to you  
As you share the best of you share the rest of you it takes me down  
It takes me down  
Take me Down, take me deep down  
'coz it doesn't make me feel good  
You're my sun & my rain but the rain flow away  
So what you trying so hard, so where you going so fast  
Can't you forgive for the past may I'm blowing you? No way  
I'm talkin' about your critical point of no return

Flow my fingers on da keyboard still  
Flow the screen to my open wide eyes  
Eyes my fingers on da keyboard still  
Flow the screen to my open wide
