

# Addiction Crew, Higher

[Music & Lyrics by S. Guadagnoli]

Stand what you stand for,  
I know you'll cross the line  
More give some more to life  
and keep it rising high  
Hold on...

So this time I know my self right, I know my self well  
I know my self  
drop the funk drop the bass yo

[Chorus:]

Sometimes I just can get it  
Right,

Higher (so high to me)

And leave my hardtimes far behind

Higher (so high to me) and let the past dust flow away

So what about the passion,

Leaving the goodtimes into the badtimes

Gotta be strong to get out of it

I've been thru so many stuff that hurts I swear

Troubles melt with my life, handle my time,

Doing my best, that's what I want-

So this time I know my self right...

[Chorus]

Words don't come easy I know, Y... don't come over

I would let U see my mind like a DVD movie's frame

Words don't come easy I know, Y... don't come over

I'm just about to tell your love that I'm feeling it

[Bridge & Chorus]
