

Adem, Something's Going To Come

Don't look so forlorn
Cause something's going to come
I don't know where from.
I don't know where
Don't you look so sad
Cause something's going to come
I don't know where from,
I don't know where
Don't you look at me
Like things aren't going to be
The way we thought they'd be
Cause we've got love,
Always
Love always.
La La La-La La La-La La
Stop.

Don't you turn around
Have faith in what you chose
Cause life can sense your attitude
I don't know how
You've got to realise
That hope looks in your eyes
If you look away it flies
Let's look forward
If you still believe
That things are going to be
Like we hoped they'd be
Then we'll have love
Always
Love always
La La La-La La La-La La
