

Adema, Drowning

I gave into
The stress in life
I can't escape
The pressure seems to get me down

It's like a needle in my spine
It stings inside
Poisons me with time
I can't deal with your lies

I wish I could watch you drown and die
And take my time
Life has always been a problem, can't you see?
I don't fit in

People have said (They have said)
I'm not okay (I'm not okay)
I lost my mind, numb me 'til I won't feel pain again

It's like a needle in my spine
It stings inside
Poisons me with time
I won't deal with your lies

I wish I could watch you drown and die
And take my time
Life has always been a problem, can't you see?
I don't fit in

Life is gone
I am no one
Life is gone
I have no one

Life is gone
I am alone
Life is gone
I am alone

Fuck all the shit that you hold in your mind
Let it all go and in time you will find
Nothing is real and dies in the lies
Suffocate feelings you hide with lies

I wish I could watch you drown and die
And take my time
Life has always been a problem, can't you see?
I don't fit in

I wish I could watch you drown and die
And take my time
Life has always been a problem, can't you see?
I don't fit in
