

# Adina Howard, We Make Love Tonight

Let's make it happen  
Let's make it happen, baby  
Let's make it happen  
Let's make it happen, baby  
If we make love tonight  
Will it change us for the rest of our lives  
(Let's make it happen)  
(Let's make it happen, baby)  
If we make love tonight  
For the very first time  
(Let's make it happen)  
(Let's make it happen, baby)  
Here we are alone again  
But we never kicked it like this before  
(We never kicked it like this before)  
Ooh, the touchin', the kissin' and the huggin', baby  
I must confess I want to explore  
We've been homies for so long  
I just can't calculate the time  
But if we make love tonight  
Will it change the way we are  
The question remains on my mind  
I wanna know  
I call you on the phone each day  
I must admit you're my best friend  
But I can't ignore my attraction to you  
Are you the man for me  
Tell me what's in store  
You know my darkest secrets  
And I know a few things about you too  
We're puttin' our friendship on the line  
But I wanna get next to you  
All I wanna know  
You know, we've been homies for awhile  
Kickin' it and everything  
I think it's time for us to take this relationship to another level  
So, uh, what I wanna know is  
Do you wanna make love to me  
Baby  
But I know  
'Cause I wanna make love to you  
Tell me if it's wrong  
Do you wanna make love to me  
Baby  
But I know  
'Cause I wanna make love to you  
But I know  
Do you wanna make love to me  
Baby  
But I know  
'Cause I wanna make love to you  
Tell me if it's wrong
