Can I Want Your Love

Is this wrong or is this real

Should I deny the way I feel

Every time I get close to you

Feels like I'm doin' somethin'

I'm not supposed to

Can I want your love

Would it be ok

I wonder what you would say

If I kissed your lips

Would it shock your heart

Or do you want to go that far

Can I want your love

Do I dare cross this line

'Cause girl, my desire might make you mine

This temptation is such a rush

How much of you am I worthy of

Can I want your love

Would it be ok

I wonder what you would say

If I kissed your lips

Would it shock your heart

Or do you want to go that far

Can I want your love

Every time I get close to you

Feels like I'm doin' something

I'm not supposed to

Can I want your love

Would it be ok

I wonder what you would say

If I kissed your lips

Would it shock your heart

Or do you want to go that far

Can I want your love

Can I want your love

Can I want your love
