Scream

I wake up late at night  
Makin' sure you're still by my side  
I try hard not to make a sound  
Can't help my heart it just beats so loud  
So full of love I could burst  
The way I feel about you girl I wanna just

Scream at the top of my lungs  
Tell the whole world how much I love you  
Shout it from the highest mountain  
Let 'em know I found the girl of my dreams  
It's pure electricity girl, you got into me  
Like nobody else could  
It feels so good I could scream

How can I sleep with you right there  
I wanna bury my face in your long blonde hair  
Moonlight falls across your skin  
I fight the urge building up again  
But it's too late I feel the rush  
Runnin' through my body girl I wanna just

Scream at the top of my lungs  
Tell the whole world how much I love you  
Shout it from the highest mountain  
Let 'em know I found the girl of my dreams  
It's pure electricity girl, you got into me  
Like nobody else could  
It feels so good I could scream

Can't help myself I gotta  
Here it comes, I'm gonna scream  
I'm sorry, I just couldn't help myself  
Scream  
Make me wanna scream baby  
Here it come baby, I'm gonna  
Scream, yeah  
You scream too if you feel the need to
