

# Admiral Freebee, Perfect Town

I knocked at your door at dawn  
And I dragged you, from your bed  
Somehow there was something somebody said  
That makes me dream my dream, in rainbow red  
It is difficult to understand  
But impossible to forget

I've been out here so many times  
But I know that you can't look down  
'Cause the ground here it is gone  
Seems like the perfect town  
To get away  
From

And lonely is how I feel  
I'm only a man of steel  
Forget about the girl, forget about the boys  
Turn off your tv's and put away your toys  
'Cause they won't do what you want them to do  
The void is permanent, like a tattoo

I've been out here so many times  
But I know that you can't look down  
'Cause the ground here it is gone  
Seems like the perfect town  
To get away  
From
