

Admiral Freebee, Rebound Love

Get her soul
Put it in your song
If you don't like my face
You better leave this place

Hey there's a main main man
On my main main chord
And there's a place I know
She don't want me to go

Sugar likes to take things slow
Hates it when she does not know
Where it is that I'm going
Over there
I'm gonna need a whole lotta luck

When push comes to shove
You gotta be above
'cause it's rebound love
'cause it's rebound love

You know it ain't no good
You're not doing things like you should
You know whatever is fine
As long as it's on the outside line

Yeah I got my homeboys here
But they live in fear
You know somewhere, somehow, somebody must have stabbed you in the back my friend

When push comes to shove
You gotta be above
'cause it's rebound love
'cause it's rebound love

You know I
I've got that thing for you
I've got that thing for you
You know I
I've got that thing for you
I've got that thing for you

And it must be love
Cold blooded love
And it must be love
Cold blooded love
