

# Admiral Twin, Slowdown

You  
Your life's an endless mission  
Blind to the consequences  
While earthly poisons  
Drain the lifeblood out of you

You're living like a candle  
And if it burns too quickly  
You really need to find  
A way to slow it down

Slowdown  
You've got to live for something  
Slowdown  
Before it gets away  
Slowdown  
You've got to set aside  
Some time to get it right

You  
You never think about it  
But life is like a window  
And if it's left open or shut  
It's up to you  
You need to share with someone  
And if it don't come easy  
You're gonna have to find  
A way to slow it down

Slowdown  
You've got to live for something  
Slowdown  
Before it gets away  
Slowdown  
You've got to set aside  
Some time to get it right

Sometimes you'll find  
That even fools can offer wisdom  
In their views of the world  
And it's gold

You  
Your life is in the fastlane  
You need to take it easy  
You really need to find  
A way to slow it down

Slowdown  
You've got to live for something  
Slowdown  
Before it gets away  
Slowdown  
You've got to set aside  
Some time to get it right

Sometimes you'll find  
That even fools can offer  
Wisdom in their views  
Of the world...

Slowdown  
You've got to live for something  
Slowdown

Before it gets away  
Slowdown  
Before it gets away  
Slowdown  
Slowdown
