

Admiral Twin, Sun & Moon

Admiral Twin
Miscellaneous
Sun & Moon

When they stare out at the stars
like satellites we'll always be there
I am the sun, you are the moon
we are the hope they'll always see there
It's true
I burn for you
this time each day
we meet this way
to share the things we've got to say
When they go to sleep at night
like reveries we'll always be there
Our souls entwine
and share the dream
we both believe
we can fly anywhere
It's true
I burn for you
this time each day
we sleep this way
to share the things we've got to say
