

# Adrian Belew, Meet Me In The Dark

When the sun comes up  
In the nuclear sky  
And the life we had  
Has blown up and died  
We will shed no tear,  
We will skip no beat  
And we will walk right down  
The middle of the street

So let the power fail  
Let there be no doubt

I wanna be with you

When the sun melts down  
And the night goes black  
We will take down the flag  
And never look back  
We will break no law,  
We will be the law  
And go hand in hand  
Into the face of it all
