

# Adrian Trojanowski, My love

The word of love

Word of time feelings is coming time

The cheer and freedom disappear

The hearth chained up by love

The life given to one person

REF: You are my first and last love

You are the girl of my life

You are my love my happiest my hope

I will love you till I die

I will love you to the end of the world

I believe that you love me

That we'll be together for eternal time

That happiest will never leave us

Of course I know bad days will come

But I will stand by you on the worse days

It's certain

REF: You are my first and last love

You are the girl of my life

You are my love my happiest my hope

I will love you till I die

I will love you to the end of the world

REF: You are my first and last love

You are the girl of my life

You are my love my happiest my hope

I will love you till I die

I will love you to the end of the world
