

Adrienne Pierce, Walk Through Me

I am the one that felt but you can't see
I am the voice that you want that you need
This is my house, come on in, come inside
The basement is deep and the attic is wide
The kitchen is tiny but I can still cook
Come on in, come on in, come on in
I'll give you a closer look
I've been, I've watching you, I hope that you don't mind
I'll be, I'll be watching you, watch you till I'm blind
Darkness drains away as soon as you arrive
When you walk through me, walk through me, I feel alive
I'm not a silky ghost, don't do the dishes
And you thought that you weren't superstitious
Don't fear these apparitions, no need to hide
Follow me, follow me, follow me, let me be your guide
I've been, I've watching you, I hope that you don't mind
I'll be, I'll be watching you, watch you till I'm blind
Darkness drains away as soon as you arrive
When you walk through me, walk through me, I feel alive
I feel alive, I feel alive, I feel alive
I've been, I've watching you, I hope that you don't mind
I'll be, I'll be watching you, watch you till I'm blind
Darkness drains away as soon as you arrive
When you walk through me, walk through me, I feel alive
