

Aendiaena, I Need A Miracle

i woke up from a middle of a dream
of this dream i'd like to live it on
now it's gone like you have never been here
but my love for u is steadily growin'

just call on my heart
and we'll make a start

i need a miracle, a tiny little miracle
so come and ease my mind
three words of u would do
a miracle, a tiny little miracle
to come and ease my mind
it's all because of u
hey girl, all because of u allright now
now it's time for our true love to share
yeah,
i'm the one to sleep there by your side
call my name and i will be ready
when u need some tender love in the night
just call on my heart
and we'll make a start

i need a miracle...

come to me when you're feelin' low
come to me when you wanna have fun
come to me when you got no one
we gonna live it up in my home
