

Aendiaena, I Only Want You

last friday night u talked
just'bout the weather
yesterday's theme
were chemics and news
for even ten days
u shun senseful talks
i call u a man with a heart cold as ice
start hurting your pride to get to know
what's inside
i have allready waited much too long

u didn't get me, babe
u misconside me
so please tell me
what is wrong with u
u didn't take my meaning
i only tell u what i've at heart

i only want u to be my friend

i cannot comprehend why u are angry
i meant nothing else but (to) "listen to me"
are u belivin'
in my secret love to u
