

Aendiaena, Right Out Of Here

summer's gone the leaves come tumbelin' down
this picture of you pretend's I'm not alone
in my restless mind one melody
it's the song that we sang in ardency
you know I am the one
you could come running to
I wish I could be here
'cause you're the only one that I want
back were we started
so come to rescue my heart
I send my lovin'
right out of here

call me up
I know i will survive
just a fool of love wish to keep up the fire
and this fool I am and want to be
on a bed of nails you're finding me
you know I am the one you could come running to

wish you could be here
'cause you're the only...

summer lovin' always has to end
'thought it seemed to be
like heaven sent
when the one you dearly want is so
far, far away

with a photograph held in your hand
of the one you loved
there in the sand
you think about the life you could
have spent close together
