

# Aeon, Hallway To The Unknown

is there a place?  
where we can find ourselves  
in the way  
that we want to be  
a place of happiness  
extasy and pleasure  
or it's (only) our fate to die in hate

I saw last night  
a shining blast in front of my eyes  
but (who knows why) I didn't wanted to discover  
what is hiding on the other side  
(f\*\*k, maybe it was even worse there)
