Aeon, Hallway To The Unknown

is there a place?
where we can find ourselves
in the way
that we want to be
a place of happyness
extasy and pleasure
or it's (only) our fate to die in hate

I saw last night a shining blast in front of my eyes but (who knows why) I didn't wanted to discover what is hiding on the other side (f**k, maybe it was even worse there)
