

Aereogramme, Fuel to Burn

And everything seems fine
Till you decide to
Open your eyes

And I am so tired
Of wanting destruction
To fall on the world

It's all fuel for
Man to burn

I will take out your eyes
I will take out your eyes
I will take out your eyes
I will take out your eyes

Get outside
Get outside
Get outside
Get outside

Get outside
Get outside
Get outside where
The air, I know
Is for the last time
