

Aerosmith, Light Inside

Boo-ya
There's a place in the way outis sphere
Do ya
Want to burn the midnight oil?
Does it fool ya
When you think there's no way
Out of here
Let it pull ya
From the outside to within

The light inside is burning bright
The light makes everything all right
The light inside is burning bright
The light inside, oh yeah, all right

May I
Introduce you to my point of view?
Me, I
Wanna get under your skin
I wanna thank you
For the pleasure that I get from you
I wanna drag you from the outside to within

The light inside is burning bright
The light makes everything all right
The light inside is burning bright
The light inside, oh yeah, all right

The light inside is burning bright
The light makes everything all right
The light inside is burning bright
The light inside, oh yeah, all right

The light inside is burning bright
The light makes everything all right
The light inside is burning bright
The light inside, oh yeah, all right
