Sick As A Don

please, I've just got to talk to you  
please, well get your head out of the loo  
please, we're a long long way from home  
please, you turn a young man's face to stone  
sick as a dog, what's your story  
sick as a dog, a cat got your tongue  
sick as a dog, you'll be sorry  
sick as a dog, 'cause you really ain't that young  
please, you were much to my surprise  
please, you're a lady in disguise  
please, you're the only friend I got  
please, you'd be the last to see me rot  
please, it's a shame you're so refined  
please, she was the last thing on my mind  
please, don't be late to take it light  
please, you're gonna bay into the night  
take it light (?) (4x)  
say goodnight
