

aespa, Better Things

Oh, oh, oh, I got better things to do with my time
Better things to do with my time
Do with my time than you
Oh, oh, I got better things to do with my time
Better things to do with my time
Do with my time

I was never sure that I loved you
But I was always sure that you would let me down
Wasn't ever sure that if I trust you
But I am so goddamn sure my energy is just too precious to waste
So now you, now you wanna

Know me, wanna know me
Wanna know all about me, wanna know about me
But he can't have me 'cause I left him alone
You know you wanna know me, wanna know me
Wanna know all about me, wanna know about me
But he can't have me 'cause I'm gone no-no-now

That I, I-I-I got better things to do with my time
Better things to do with my time
Do with my time than you
Oh, oh, I got better things to do with my time
Better things to do with my time
Do with my time than you
Break it down
Oh, oh, I got better things to do with my time
Better things to do with my time
Do with my time than you (Yes)

Wasn't ever sure if I loved you
But I was always sure you would have love me back
You had me right, right, right at my weakest, yeah
Now you're hurtin', I can see you're mad
'Cause you never gonna get that back now

I know you wanna know me, wanna know me
Wanna know all about me, wanna know about me
But he can't have me 'cause I left him alone (I left him alone)
I know you wanna know me, wanna know me
Wanna know all about me, wanna know about me
But he can't have me 'cause I'm gone no-no-now

That I, I-I-I got better things to do with my time
Better things to do with my time
Do with my time than you
Oh, oh, I got better things to do with my time
Better things to do with my time
Do with my time
