Afghan Wigs - I Know Your Little Secret

=====

he liked to kiss the boys
he liked to kiss the girls
he liked to kiss the inbetweeners
rub his tongue on their gums
rub his tongue on their gums
& lie with them
& lie to them
& light it up
i know your little secret
watch my eyes
they see what YOU don't see
they see what YOU know
& what YOU think i don't know
ah but now we both can share
everything we've ever done
everyone we've ever touched
YOU liked the boys and girls
i know your little secret
all the lies
all the hesitation
won't bring me closer now
won't you bring me close
i know your little secret
