

AFI, Leaving Song

Walked away
Heard them say
Poisoned hearts will never change
Walked away
Again
Turned away
In disgrace
Felt the chill upon my face
Cooling from within
Hard to notice
Gleaming from the sky
When youre staring at
The cracks
Hard to notice
What is passing by
With eyes lowered
You
Walked away
Heard them say
Poisoned hearts will never change
Walked away
Again
All the cracks
They lead right to me and
All the cracks
Will crawl right through me
(repeat)
And I fell apart
As I
Walked away
Heard them say
Poisoned hearts will never change
Walked away
Again
Turned away
In disgrace
Felt the chill upon the face
Cooling from within
