## Afrojack ft. Eva Simons, Take over control

[Eva Simons]

Let's go take a ride in your car

I will take the passenger seat

Baby we don't have to go far

Unless you want to show

Be at a lovely place out of town

Where you feel most steady

Well you are the one that i like

Always will be time to let you know

Know when you feel when you take hold

One single touch from you I'm gone

Still got the rush when I'm alone

I think it's time I let you know

Take over me I will be flout

You set me free my body is your

It feel the best when you're involved...

I want you to

Take over control

Take over control

Take over control

Oooh I want you to

Take over controllll

Plug it in and turn me on

I want you to

Take over control

Take over control

Take over control

Oooh I want you to

Take over controllll

Plug it in and turn me on

I want you to

Take over control

Take over control

Take over control

Oooh I want you to

Take over controllll

Plug it in and turn me on

Baby, baby can't you see

That I'm giving all of me

So it's up to you now

We could let them pass away

Only can excuse to play

But it's up to you now

Just wanna fulfill your needs

That's why you taking over me

So what do you want now?

Take a picture, make a show

Cause nobody yes and no

All the ways that we get down

I want you to

Take over control

Take over control

Take over control

Oooh I want you to

Take over controllll

Plug it in and turn me on

Plug it in and turn me on

Plug it in and turn me on

000000

Plug it in and turn me on

Plug it in and turn me on

On, on, on, on...
