

Afromental, City jungle

City jungle x8

Łozina:

Somebody's watching me

I hear them whispers all around

I need to find my love

but what I hear is just weird sounds... (just weird sounds)

Somebody screams (scream)

Some people fight some people run

I need to find my love... (find my love)

But what I hear it just weird sounds

I hear some #%!@&'s in my head

City jungle x4

Now am I mad

I think I saw her once or twice

But she's not there any more

Though I won't forget her eyes... (forget her eyes)

Them whispers still in me

Weird thoughts are goin' through my mind

I need find my love

In the city jungle. All right

Chorus:

I can't see no light

My life's goin' by

Can't waste my time

Gotta stop to fihgt for love for life

So let's give a try to fight for better life

Love is all around

Don't waste you're time

City jungle x4

Tomson:

I can't think

I can't sleep

That jungle's scarrin' me

I get sick of that shit

I just wanna get out of there

There no sense to live, no sense to feel

Nothing here is real

Fake smiles (fake smiles)

Fake tears (fake tears)

Fake happiness (fake happiness)

Fake fear (fake fear)

I just wanna know what makes that place so strange to live in

I just wanna know how people made a jungle from a city

I just keep hope alive that love will still have a meaning

That me myself and I will find the feelin' All right

Chorus:

I can't see no light

My life's goin' by

Can't waste my time

Gotta stop to fihgt for love for life

So let's give a try to fight for better life

Love is all around

Don't waste you're time x2
