Written by jon b.

Lead vocals: melvin edmonds, kevon edmonds

Hey girl I got it for ya'  
In a real bad way  
So baby you could push me 'round  
Push me down your way  
I don't care anywhere's good down there  
But baby in the back of your mind  
You want to feel me sliding up your leg  
Oh yeah

Take your time  
Let's make sure the feeling's right  
I wanna know what's up  
Should we stop or should we.

Save it up, save it up  
Save it up for me baby  
Shooby-doop you my baby  
'cause you know you're just  
Drivin' me crazy  
Save it up baby love  
Don't hold back your lovin'  
Shooby-doop you my baby  
'cause you know you just  
Drivin' me crazy

Sweet thang candy got ya'meltin'  
In your flame  
'cause baby you're safe and warm  
Given into the game  
Oh way down there  
Deep in your ocean way  
Send me down there girl  
I'll find your pearl  
At the end of the day  
Ease your mind  
Let's make sure the mood's alright  
I wanna fill your cup  
So what's up or should we.

(chorus)

Baby what's your name  
Come and let me see your love baby  
I just wanna know your name  
Baby what's your name  
Come and show me your love  
I just wanna give you game girl  
I just want you baby, yeah

(chorus)
