

# After Classes, 11. September

Don't tell me it's peace 'cause this is a war  
I see it on your face you're silent and don't talk  
people choose wrong ways those lead nowhere  
why do they kill civilian? It's not their fault! Never!

[Chorus:]

Are you sure the kids are  
safe in the school or in the streets?  
ain't you afraid whether your kids are  
safe in the school or in the streets?  
Humanity's running to the death Earth becomes Hell  
will be too late when you'll see everything that nobody has care  
terror is the cruelest way of revenge and kill  
Americans don't wanna war Islam only want to be free

[Chorus]

Is America to blame?

Is islam to blame?

We all are to blame!

[Chorus:]

Are you sure the parents are safe  
in workplaces or in the streets?  
Ain't you afraid whether your parents are safe  
in their workplaces or in the streets?

11. September never forget that day
