

After Classes, I Wish

Sometimes I would like to be alone
or flying as a bird
sitting by the fire in the night
and sometimes forget the world
could dream a dream
about a beautiful place
an angel holding my hand
and sing something beautiful to me

[Chorus:]

I hope the dream can be real
I wish I dream something beautiful
I believe in you and you believe in me
I believe in God who lives in my soul
I never know
why I like sad songs
'cause my life's never been sad
I don't know why is it so
the time passes away
I feel I'll be young for a long time
I feel I can defeat the time
I feel everything is mine

[Chorus]
