Against All Authority, Sounds Of The Undergroun

Hey hey hey! Hey hey hey! Hey hey hey! Hey hey hey!

We're all here, we're all the same
Fighting each other, nothing's to gain
Open your eyes, don't play their game
(Open your mouth, but do not close your eyes
Fight the system, not each other, they control your lives)

Why are we so busy fighting each other
When we should be fighting the system that fucks up
And holds us down with the shackles that bound
There's a new sound comin' down from the underground
A sound called unity if we stand together
We'll never be torn apart by the hatred
We've gotta stop the violence in our scene
And focus our hate on the state till they hear our screams

We're all here, we're all the same Fighting each other, nothing's to gain Open your eyes, don't play their game (Open your mouth, but do not close your eyes Fight the system, not each other, they control your lives)
