

# Against All Authority, Ugly Desires

So you can't get it up you'd better take you medication  
Now you have an oily discharge running down your leg  
You're new girlfriend looks like the new sensation  
Plastic face and lips hide the feelings of despair  
I wanna feel like that  
I wanna look like her  
I wanna follow the leader and be part of the herd  
These ugly desires that were instilled  
In you by the companies that made you ill in the first place  
So doc do you think I have a problem?  
Yea you got lots, but that's ok we'll solve em'  
You're just gonna need a series of operations  
And take these pills for the rest of your life  
A body like Venus  
Your soul is on fire  
Such a pretty face  
With ugly desires  
And now you look back on how you used to be  
Cause you're new and improved but you're still unhappy  
Cause now there's something new on the television  
That you want to be  
I wanna feel like that  
I wanna look like her  
I wanna follow the leader and be part of the herd  
These ugly desires that were instilled  
In you by the companies that made you ill in the first place
