Against The Current, Running With The Wild Thir

Oo they don't hear us Read us bedtime stories from their textbooks Oo try to rein us in Blind to our intelligence

Standardization of the masses Give us a number fail or pass us Education, manipulation Decide our fate but never ask us

We're about to boil over You can't keep us down forever

We got too big for the cage, you locked us up in Let's mark this down as the day, that we started something So open the gate, open the gate cause when we Finally escape, finally escape we'll be Tearing through the streets Running with the wild things

Hey why you waiting Quit carving notches to count the days cause They're losing power See em growing weaker by the hour

We're about to boil over You can't keep us down forever
