

# Agata Karczewska, Harvest

Harvest is not yet here  
Harvest is not yet here  
But it will come it will come someday  
It will come it will come someday  
It will come it will come someday  
It will come it will come someday

Villains of every tale  
Be patient you'll find your way  
Cause it's a human thing to stray  
No surprises more mistakes  
It's a human thing to fail  
It will come it will come someday

Harvest is not yet here  
Harvest is not yet here  
But it will come it will come someday  
It will come it will come someday  
It will come it will come someday  
It will come it will come someday

Jokers you've had your fun  
Come closer and enjoy the run  
Cause it will crush your hungry eyes  
So delusional to like  
Every person that you shag  
It will come it will come some time

Nail me to your shiny cross  
Hate me I've seen enough  
But it will come it will come someday  
It will come it will come someday  
It will come it will come someday  
It will come it will come someday

Harvest is not yet here  
Harvest is not yet here  
Harvest is not yet here  
Harvest is not yet here

Nail me to your shiny cross  
Hate me I've seen enough  
Nail me to your shiny cross  
Hate me I've seen enough
