Agata, Save The Empty Space

I wish...
Once in my life
Everything would be all mine
All of my dreams
Would come to me
Without saying goodbye
You will be mine forever

Chorus

Save the empty space
For me in your heart
Don't you give it away
Just keep it by your side
And I will be there for you
To fill the empty space...
With my heart.

And I wish ...
To tell you so much more
But I lost you now I've know
I can't find the words to say
How I feel
'Cause inside of me....
I love you still

Chorus

Save the empty space
For me in your heart
Don't you give it away
Just keep it by your side
And I will be there for you
To fill the empty space...
With my heart.

I never should let you go
Away from my heart
All I need is you
So please, so please, so please.

Chorus

Save the empty space
For me in your heart
Don't you give it away
Just keep it by your side
And I will be there for you
To fill the empty space...
With my heart.
