Agathocles  
Miscellaneous  
Siegshit

See them shouting in the streets,  
Shouting &quot;hail&quot; on a marching beat,  
Didn't history teach us that,  
Fascist bastards bring us death,  
Must we be tolerant?  
Or smash them with our own bare hands?  
Put them together on a nuclear base,  
And just bomb the fucking place,  
What we gonna do when it's all too late?  
And when there's nothing left on our plate,  
No more bullshit like &quot;we didn't know&quot;,  
When the nazis are heading for another show,  
FIGHT BACK - KILL THE NAZI PACK  
FIGHT BACK - KILL THE NAZI PACK  
Never-Again  
Raise your voice and raise your fists,  
Because we too are very pissed,  
And be aware of the fact,  
The nazi-regime must be cracked,  
Just smash all the fascist pigs,  
Then solve this economical shit,  
Socio-anarchism must rise again,  
And it will not be the American dream
