

Agent 51, I Believe

I believe in revolution
I believe in silent power
crawled out with the institution
in the witching hour

My dreams
They can't be all just what I see
They can't be all just what I live
They can't be all just another dream
But I believe

I believe in revolution
I believe in silent power
crawled out with the institution
in the witching hour

I see
that what about was suddenly
was just a hidden tragedy
stare at the sun inside of me
I still believe

I believe in revolution
I believe in silent power
crawled out with the institution
in the witching hour

(I believe in, I believe in, I believe in,
I believe in, I believe in, I believe in,
I believe in, I believe in, I believe in,)

But I believe in revolution
(I believe in, I believe in, I believe in, I believe in)
I believe in silent power
(I believe in, I believe in, I believe in, I believe in)
crawled out with the institution
(I believe in, I believe in, I believe in, I believe in)
in the witching hour
(I believe in, I believe in, I believe in)

I believe in revolution
I believe in silent power
crawled out with the institution
in the witching hour
