

Agent Felix, Internet Girl

I met this girl today her screen name is Jenn198
and she seems really nice
I can tell by all the words she types
she lives real far away
she hopes that we will meet one day
and when she chats with me
there's no where that I would rather be
then connected to the internet
talking to some girl I've never met
She's my internet girl (She's my internet girl)
She might really be a guy
She's my internet girl (She's my internet girl)
She might really be a guy
She sent me a picture
but who knows maybe it's not really her
she says she's 5'5" has blonde hair and green eyes
she's probably 6'3" has sideburns or a goatee
I bet she's so fat
I'd die if of on me she sat
and how am I supposed to know
if she's a raging psycho
She's my internet girl (She's my internet girl)
She might really be a guy
She's my internet girl (She's my internet girl)
She might really be a guy
