

# Agent Orange, Breakdown

they want us to tell them  
what to burn into the groove  
we're just gonna sit  
and let them make the first move  
the radio obsession  
doesn't mean a thing to me  
i don't like first impressions  
and i don't watch much tv

i don't want to think about it  
who, what, when, or where  
i don't want to think about it  
i don't really care  
i don't want to think about  
creating something new  
i don't want to think about it  
because i've got much better  
things to do

i don't want to think about it  
i don't want to see  
i don't want to know  
the kind of fool  
they'll make of me  
the public gets what they deserve  
not what they demand  
unless we all decide to be  
a business, not a band

i don't want to think about it  
who, what, when, or where  
i don't want to think about it  
i don't really care  
i don't want to think about  
creating something new  
i don't want to think about it  
because i've got much better  
things to do - just like you

it's just an awful nightmare  
and i get these awful headaches  
and i can't get any sleep at night  
i don't know what to do  
i don't know where to turn  
or what to think  
i haven't got a clue  
i don't know what's come over me  
i'm getting dizzy  
please will someone make it stop

[repeat 2nd verse]  
[repeat chorus]
