

# Agent Orange, Living In Darkness

look at me now, i've got no reason to be  
like everybody else - so dumb, so happy  
i like things that bite  
things that creep at night  
everybody's asking me  
what's it like down there?  
the concrete floor is cold  
the walls are bare

i feel safest being alone  
living in darkness  
living in a world of my own

i'm so selfish  
doing everything by myself  
i feel so cold  
i'm gonna live  
to be a couple thousand years old  
ashes to ashes - dust to dust  
i thought i knew somebody  
that i could trust  
now i'm not so sure

i feel safest being alone  
living in darkness  
living in a world of my own

one whole lifetime  
i'm never gonna last  
unless i live until  
dying is a thing of the past  
and all these girls i know  
out turning boys into men  
i know i am never going down again  
never again

[repeat chorus]
