Agents Of Good Roots  
Straight Around  
Straight (live)

The moon was drifting over jordan  
As the street lies under control  
And the she slips into the middle  
Head on, the tour takes it's toll  
You bring blues from a fountain  
Keep you wishing for a rainy day  
Get a sandman sitting  
Giving looks that will fade away

If you could get yourself straight  
I think that i would like to talk to you  
'cause talk, talk, talk  
That's all we do

Will you dance for your brother  
While your lover doesn't know your name  
And in an undercover shot  
Still you talk of what you can't explain  
They say nice change lady  
Hey baby can you spare a dime  
But then you put it in your pocket  
And its off with another line

You better believe it  
Better go
