

Agents Of Oblivion, Phantom Green

just a cold millennium in another dry age
just a cold millennium in another dry age
the vanishing man has madness to sow
there are secrets he knows that have never been told
i was sleeping with the insects yeah.....
i was dreamin of the ocean
the devil is just out of frame
the devil is just out of frame
it's suck a cold dimension
this slow burn in my head
(soul, blood)
phantom green is the color of the sky
its the color i see when i close my eyes
phantom green is the color of the sky
its the color i see when i close my eyes
the devil is just out of frame
the devil is just out of frame
