Come and go

When its dark and I walk through the park  
See a star coming on knowing it might be gone

Searching for something I cant find  
Begging for help but people are blind  
Love and hate upon my soul  
Living my life without a goal

It all come and go  
Searching for a new flow  
Its all come and go  
Searching for what I know

So when I come home and Im all alone  
Since I dont know I decide to go

Searching for something I cant find  
Begging for help but people are blind  
Love and hate upon my soul  
Living my life without a goal

It all come and go  
Searching for a new flow  
Its all come and go  
Searching for what I know

So what would you do when Id love you  
Would you think its lie or would you start to cry

Searching for something I cant find  
Begging for help but people are blind  
Love and hate upon my soul  
Living my life without a goal

It all come and go  
Searching for a new flow  
Its all come and go  
Searching for what I know

Repeat till end
