Straight Jacket

Tentacles holding me to the ground, unable to move above or under the ground

Lying still, not making any sound

Screaming until I'm found

I can't take it anymore cause it holds me back

Must explode, must explode before I implode

Must explode before I implode

Have to sleep to reload

Gotta find the remote

Controlling my reality

Walking to eternity

Have to sleep to reload

Gotta find the remote

Controlling my reality

Walking to eternity

Same places, different faces

Cruelty grows, as pain raises

People go and do without thinking

Trying to find the solution but the answer is to go

The answer is to go

Have to sleep to reload

Gotta find the remote

Controlling my reality

Walking to eternity

Have to sleep to reload

Gotta find the remote

Controlling my reality

Walking to eternity

I think it should stop right now

I think it would be enough right now

Turning and turning there must be something in the way

Clouds and days, is this your butt or your face

People go and do without thinking

Trying to find the solution but the answer is to go

Have to sleep to reload

Gotta find the remote

Controlling my reality

Walking to eternity
