

Agnes Carlsson, Don't Pull Your Love Out

You wanna stay you wanna go
You just dont know and then you turn to walk away
I feel abraved and I cant take how it makes me wanna
Chasing all around trying hold you back from making a big mistake
Dont pull your love out on me baby
Cause if you did I might go crazy
I wanna love you like I can cause I only love my man
Dont pull your love out on me baby
Ill do my best and all the rest we come so close
And then just get off how it feels to lose control
But if you want how will we ever know
If you and I could be everything we need
But tell me you dont wanna see
Dont pull your love out on me baby
Cause if you did I might go crazy
I wanna love you like I can cause I only love my man
Dont pull your love out on me baby
Oh and I trying to let you go
But my heart just want mix it
That is wrong to keep holding on
When you believe in love
Dont pull your love out on me baby
Cause if you did I might go crazy
I wanna love you like I can cause I only love my man
Dont pull your love out on me baby
Dont do it baby
