

# Agnes Carlsson, How Do You Know

Its been a long time and its really getting hard to fight it I know  
Cover it up but its much too hard to hide it is  
Hanging around I cant believe I didnt see it coming  
I wanna run away but I just cant seem to leave it oh no  
Im going round round nothing down I dont understand  
I say no no let it go dont be a fool take no chance  
How do you know how do you know if its real and where do you go?  
How do you know how do you know if it is please show me the roads?  
If its love then how do you know?  
If its love then how do you know?  
I believe youre an angel down to guide me you are  
To one thats always be right here beside me oh please  
Tell me that my mind wont go and chance it Im scared  
Promise me youll be here when we get here oh yeah  
Im going round round nothing down I dont understand  
I say no no let it go dont be a fool take no chance  
How do you know how do you know if its real and where do you go?  
How do you know how do you know if it is please show me the roads?  
If its love then how do you know?  
If its love then how do you know?  
Understand that love takes more than reason  
But Im finding youll never understand at all
