

# Agnes Carlsson, Love me senseless

Im floating higher bring the atmosphere  
Youre everything but us just disappears  
Never plain like coming down from here  
I wanna melt into your arms into the stars  
Into the night and fly away  
Beyond any world Ive ever seen  
Your eyes take me  
Beyond any dream Ill ever dream  
Your touch wakes me  
Baby I just need to read you in  
Feel my body call my love again  
Let me get lost inside your kiss oh love me senseless  
Dont know how I live without your love  
I only know I never lived enough I know  
Now I think I almost feel too much  
I just wanna let it flow let it go  
Into the blue and fly with you  
Beyond any world Ive ever seen  
Your eyes take me  
Beyond any dream Ill ever dream  
Your touch wakes me  
Baby I just need to read you in  
Feel my body call my love again  
Let me get lost inside your kiss oh love me senseless  
Feel my song without a sound  
Till I know it to be found  
Beyond any world Ive ever seen  
Your eyes take me  
Beyond any dream Ill ever dream  
Your touch wakes me  
Baby I just need to read you in  
Feel my body call my love again  
Let me get lost inside your kiss oh love me senseless
