

# Agnes Carlsson, On and On (r.e)

On and on  
This love I feel for you goes  
On and on  
This world can be a scary place  
And so much love goes to waste  
One moment everything was clear  
The next it all could disappear  
We need something to hold on to  
I wanna be that thing for you  
'Cause you're not in this all alone  
Your heart has finally found a home  
REFREN:  
On and on  
This love I feel for you goes on and on  
It's something you can't lose  
You're gonna find  
This heart of mine  
Withstand the test of time  
(Oh) On and on  
Can't you see this is where you belong  
I've got so much you've givin'  
Let down your guard  
And let these arms  
Shelter you tonight  
Words can be so hard to trust  
They made a fool of all of us  
Let your emotions be your guide  
And go with what you feel inside  
I know that what I feel is deep  
And when I play, I play for keeps  
I know that you've been hurt so bad  
But this is something meant to last  
REFREN  
I can feel us moving  
Closer by the minute  
This is so amazing  
Have a little faith in...  
Let me lead the way  
I can promise you that...
