

Agnetha F, The Way You Are

You take me high
Out of the blue
You're by my side, whenever I need you
The way you smile
The way you move
Why should I try
I can't get over you
All through the night
You take me on
When we unite, I know where I belong
When winter reigns
I'll be your friend
What we create
May last until the end
And through the time
That's passing by
I hope you'll always be
You'll be forever
The way you are
The way you are
Where mountains rise
I'll stand by you
My heart is signed
Like only lovers do
If we're apart
I'll cross the sea
Don't close your heart
This love was always free
And through the time
That's passing by
I hope you'll always be
You'll be forever
The way you are
The way you are
And if you leave
Don't go too far
In your beliefs
Just be the way you are
The way you are
The way you are
The way you are
